

*Information Technology for your Business*

### **How do you expand your goals?**

Most businesses have a limited amount of capital resources to work with, and the constraints of a budget influence nearly all economic decisions.

- The fundamental basis of economic decision making is the individuals' or organizations' desire to maximize benefits while minimizing costs.
- Families, small, medium and large business owners, and others, weigh the benefits and costs of decisions related to purchases, expanding, sales and other expenditures before making a decision. We can assist you on your decision making!

## **Who We Are**

### **About Us**

Accountant and Information Technology Professionals with over 36 years of knowledge and experience in the accounting related fields, and more than 25 years of experience in applications development and implementation, IT governance, management and business cycle operations for private and publicly held businesses.

## We are more than just tax services!

### Our Commitment

Elias A Ciudad, CPA is a firm with a strong commitment to excellence to offer a well-diversified selection of management accounting, financial reporting, income tax, IRS representation, information technology services, business augmentation consulting and management services. Our goal and mission is to provide the above mentioned exceptional services and exceed your expectations!

### It is your business!

The selection of a certified public accounting firm is a very important decision for businesses and individuals. Our focus is not to replace your current relationship, just to enhance your business acumen.

---

*“You may be doing your business a disservice by visiting your accountant only during tax season.”*

---

### Get the exact results you want

Running a business is not easy, especially when you are in the midst of a stressful or an expanding time. Reviewing action plans will help you building a road map to where your goals can be accomplished. How much revenue does your business need each period to reach that goal? How many customers or clients, paying what amount is that? How many employees will that take? Do not wait until the end of the year to learn about missed opportunities. We can help!

*Elias A Ciudad, CPA, CITP, CGMA*
